

Technology. Leasing. Mission support.

CloseMachine helps Government buyers turn requirements into delivered outcomes under a single accountable prime contract. We scope the requirement, assemble and manage the qualified partners it calls for, and stay accountable through delivery. Where CloseMachine is the right performer, we execute directly. Email us with a requirement for a scoped quote.

CORE CAPABILITIES

Technology & AI	Federal Real Estate & Leasing	Other Government Requirements
Enterprise AI implementation, custom applications and software, document intelligence, automation, integrations, and technology sourcing.	Requirement research, property-owner outreach, space fit assessment, and coordination with authorized property partners.	Requirement-driven product sourcing, logistics support, and coordination of qualified vendors and specialist services - scoped, sourced, and delivered under a single accountable prime contract.

SAM-REGISTERED NAICS

513210 Software Publishers (Primary)

518210 Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services

541511 Custom Computer Programming Services

541512 Computer Systems Design Services

541519 Other Computer Related Services

541611 Administrative Management and General Management Consulting Services

541614 Process, Physical Distribution, and Logistics Consulting Services

541690 Other Scientific and Technical Consulting Services

541990 All Other Professional, Scientific, and Technical Services

Codes above reflect our SAM registration. Solicitations are bid under the NAICS code the contracting office assigns, with delivery through qualified vendors and specialists where the requirement calls for it.

RELEVANT EXPERIENCE

Enterprise AI, delivered into daily operations

Engineer on the implementation team for UPS ORION, the artificial-intelligence system that plans delivery routes across the U.S. network. Tuned algorithm logic against live operations and trained the supervisors and drivers who run it. UPS projected roughly 10 million gallons of fuel and more than \$300 million in annual savings once the rollout was complete.

Individual experience during prior employment at UPS. Figures are UPS's published projections for the completed U.S. rollout, not CloseMachine contract performance.

Commercial property decisions, evaluated on the numbers

Evaluated and recommended commercial property and facility projects to a corporate real estate committee - comparing alternatives on cost, return, and payback, and supporting long-range lease renewal, expansion, and purchase decisions. The same discipline applied to federal space requirements.

Individual experience during prior employment at UPS. Not a CloseMachine contract or Government engagement.
